

Mr. Perry,

I have spoke with several individuals involved in this matter. At some point the United States Attorney is going to need a statement from you. You will need to respond to one of our Embassy's and give a statement to one of our Agents. They will not take non face to face statements from victims in Civil Rights matters. Due to sensitive nature statements must be in person from the victim.

The best way to get in touch with me is through this email. Thanks.

Bill Gray

The US Attorney also has a statement. I will not go to any Embassy and face arrest where my life and safety is in jeopardy while in custody. I have already been warned that the police intent to deal with me in their own way.

Warm Regards,

Bill Perry

Monroe County has no means to extradite you from Central America. Until you are willing to do that stop contacting me or this office. We have other matters to investigate. Thanks.

Reading a police report where they interview a relative of yours and your relative talks about your "psychological problems". You crazy Bill!

Last guy that called me crazy is now on trial as we speak being sued by the Federal Govt over a \$45 million dollar fraud I blew the whistle on and helped shut down. He said I was crazy too....Sounded just like you agent Grey. He said I

needed psychiatric help. Accused me of asking the most questions from a network of dealers from California to London. Told me I was delusional and paranoid, yet a college freshman would have figured it out if he took the time to look and I think you are far more advanced than any college freshman obviously.

I guess I should have just shut the fuck up as you and your freinds would like me to do now right?

You think about me the next time you are whining that someone won't cooperate with one of your investigations or is too afraid to point the finger that needs pointing when I have dropped all you need right in your lap!

You want to see the email from the Daviees County Sheriffs Deputy who is running for Sheriff soon who has carnal knowledge of Trooper Wilson and intimate knowledge of his illegal activity or shall I send in a letter addressed directly to Director Corney?

I tried to help you Bill. You did not approve of my investigative plan. Its best for you to contact an investigator in the physical area in which you are claiming the criminal activity (Civil Right violation) occurred.

I did not say you were crazy. People close to you made that determination. I obtained that info from reading a police report.

Best of luck.

Your investigative plan? I haven't spoken to you in two months. I gave you what you asked for.

You are doing this because you want to remain political obviously.

Why are you acting like such a scumbag Bill?

We both know if I were someone like Peyton Manning you and your office would be kidding my ass to get this investigated.

You took an oath Bill as I did. I am fulfilling mine. Why aren't you?

Bill Perry

I have told my former CO everything....I worked for him personally as his assistant when he used to be a CO in the USMC back in 1989.

Talked to him around midnight and he gave me the best advice on what to do next.

Do you job Bill Grey. Witness tampering is illegal, even for Federal Agents and prosecutors.

I am coming back to the USA either a free man or I am coming over the wall in Mexico and I will be back in the area.

There is no threat to you, you overpaid Weenie.

I wouldn't waste my time on you. You are obviously a cheat and a liar and God is going to handle you in his own time in his own way. I am not a violent man which you already know.

I am US citizen and the USA is as much my home as yours, if not more.

You are a dishonorable disgrace.
